COPY MAILED

JUN 06 2008

Applicant: Romero et al.  
Appl. No.: 10/562,079  
International Filing Date: June 23, 2004  
Title: CYTOTOXIC DEPSIPEPTIDES  
Attorney Docket No.: 14700-008US1 FUSP 288234  
Pub. No.: US 2007/0082878 A1  
Pub. Date: April 12, 2007

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on May 11, 2007, for the above-identified application.

Applicant requests that the application be republished because the patent application publication contains material errors wherein on page 6 of the specification "NO<sub>2</sub>" was erroneously printed as "N<sub>2</sub>" and on page 9, paragraph [0094] "βT1" should have been printed as "ΔT1".

The request is **granted**.

The corrected patent application publication will be published in due course, unless the patent issues before the application is republished.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were previously submitted, and/or **complete copies of the pre-grant publication**, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.
